

Dear Sirs,

We invite you to all year round cooperation with the "Surowce i Maszyny Budowlane" ["**Construction Raw Materials and Equipment**"] **bimonthly**. This renowned periodical with modern editing is intended for aggregates industry as well as cement and limestone industry and has been published for over 15 years.

#### Our strengths:

- The magazine is read by managers and presidents of most **mineral aggregates pits** in Poland (our address data base includes several thousands of contacts).
- The periodical is regularly delivered to the managers of **all cement plants and limestone processing plants in Poland**.
- The magazine is received by the most important and the largest road **construction companies**.
- The magazine is distributed at many **trade fairs, conferences** and **industry symposiums**.
- The periodical is of nationwide range, circulation amounts to ca. 2500 copies.
- Practitioners and scientists, renowned within the industry, guarantee **high professional level** of the magazine.
- A large database of professional photographs and our own graphic studio allow for modern composition of scientific and advertising materials.
- For 15 years, together with the largest aggregates mines and cement plants, we have been organizing the symposium **AGGREGATES CEMENT LIMESTONE – one of the biggest events in Poland for the construction materials industry**.

Issue	Closing date	Subject matter	Means of additional distribution (apart from subscription and dispatch with a name label)
